4. LOW-INCOME PROGRAMS

The Company, as part of its obligations as an Eligible Telecommunications Carrier, offers two (2) low-income assistance programs. This program, Lifeline Assistance, is offered under the terms and conditions provided below:

(C)

A. Lifeline Assistance

1. General

Lifeline Assistance is a retail service offering available to qualifying low-income subscribers, as provided for below. Lifeline Assistance enables eligible subscribers to pay reduced charges for the following package of services: voice-grade access to the public switched network; voice grade access to the public switched network or its functional equivalent; minutes of use for local service provided at no additional charge to end users; access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911, to the extent the local government in an eligible carrier's service area has implemented 911 or enhanced 911 systems; and toll limitation services to qualifying low-income consumers.

(C)

(C)

2. Regulations

a) Unless other eligibility requirements are established by the Commission, Lifeline Assistance is available to all subscribers who participate in one of the following programs: Medicaid; Supplemental Nutrition Assistance Program (SNAP), formerly known as food stamps; Supplemental Security Income (SSI); Federal Public Housing Assistance; Low-Income Home Energy Assistance Program (LIHEAP); National School Lunch Program's free lunch program; Temporary Assistance for Needy Families (TANF), or whose household income is below 135% of the Federal Poverty Guidelines for a household of that size.

(C)

(C)

b) Each subscriber to Lifeline Assistance must certify in writing to the Company, under penalty of perjury, that she/he receives benefits under a program outlined in sub-paragraph (b) (1), above, and must, on that same document, agree to notify the Company if she/he ceases to participate in the program. The certification form shall conform to the requirements described herein, and shall be made available upon request to any subscriber. The Company shall retain all such subscriber certifications in order to furnish proof of subscriber eligibility as may be required from time to time by Universal Service administrators.

REPORT OF INDEPENDENT AUDITORS

Board of Directors
Armstrong Telephone Company – West Virginia, Inc.

Report on Financial Statements

We have audited the accompanying financial statements of Armstrong Telephone Company – West Virginia, Inc. (Company), which comprise the balance sheets as of September 30, 2016 and 2015, and the related statements of operations, stockholder's deficit, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

REPORT OF INDEPENDENT AUDITORS
(continued)

We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Armstrong Telephone Company – West Virginia, Inc. as of September 30, 2016 and 2015, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

ARMSTRONG TELEPHONE COMPANY – WEST VIRGINIA, INC.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies

Description of entity – Armstrong Telephone Company – West Virginia, Inc. (Company) is an incumbent local exchange carrier that provides telephone and other related telecommunications services, Internet, inside wire, and customer premise equipment in the state of West Virginia. The Company is wholly owned by Armstrong Holdings, Inc. (AHI).

Accounting policies – The financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to regulated public utilities. Such accounting principles are consistent, in all material respects, with accounting prescribed by the Federal Communications Commission (FCC).

Accounting estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include depreciation expense and interstate access revenues. Actual results could differ from those estimates.

Cash and cash equivalents – Cash and cash equivalents are defined as short-term, highly liquid investments purchased with an original maturity of three months or less and are readily convertible into cash. Cash equivalents are stated at cost and primarily consist of money market savings accounts.

Concentration of risk – The Company's cash is held by several banking institutions. At various times throughout the year, cash balances exceeded federally insured limits of \$250,000.

In 2016 and 2015, the Company received \$626,080 or 27% and \$607,936 or 25%, respectively, of its revenue from the Federal Universal Service Fund.

Accounts receivable – Accounts receivable are stated at the amount management expects to collect on outstanding balances. The Company reviews the collectibility of accounts receivable annually based upon an analysis of outstanding receivables, historical collection information, and existing economic conditions. Receivables from subscribers are due 30 days after issuance of the subscriber bill. Receivables from other exchange carriers are typically outstanding from 30 to 60 days before payment is received. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

ARMSTRONG TELEPHONE COMPANY – WEST VIRGINIA, INC.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies (continued)

Material and supplies – Material and supplies are valued at the lower of cost or market determined by specific identification.

Property, plant, and equipment – Property, plant, and equipment are stated at original cost. Regulated plant includes assets that are jointly used for regulated and nonregulated activities. The cost of additions and substantial betterments of property, plant, and equipment is capitalized. The cost of maintenance and repairs is charged to operating expenses.

In accordance with composite group depreciation methodology, when a portion of the Company's regulated depreciable property, plant, and equipment is retired in the ordinary course of business, the gross book value is charged to accumulated depreciation.

Depreciation of the Company's nonregulated plant is provided by the straight-line method over the estimated useful lives of the assets. Upon retirement, sale, or other disposition of nonregulated investments, the cost and related accumulated depreciation are removed from the related accounts and the resulting gains or losses are included in operations.

Income taxes – The Company is a member of a group that files consolidated federal and state tax returns. Accordingly, income taxes payable to (refundable from) the tax authorities are recognized on the financial statements of the parent company who is the taxpayer for income tax purposes. The members of the consolidated group allocate payments to any member of the group for the income tax reduction resulting from the member's inclusion in the consolidated return, or the member makes payments to the parent company for its allocated share of the consolidated income tax liability. The result of these allocations is reported on the accompanying balance sheet under the caption "Income tax payable, parent company." The parent company files consolidated tax returns with tax authorities based on a fiscal year ending September 30.

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for taxable temporary differences and deferred tax liabilities are recognized for deductible temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

ARMSTRONG TELEPHONE COMPANY – WEST VIRGINIA, INC.
NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies (continued)

Income taxes (continued) – The Company records uncertain tax positions if the likelihood the position will be sustained upon examination is less than 50%. As of September 30, 2016 and 2015, the Company had no accrued amounts related to uncertain tax positions. Interest and penalties, if any, are recorded as interest expense and other expense, respectively.

Revenue recognition – Monthly service fees derived from local wireline and Internet are billed one month in advance, but recognized in the month that service is provided.

Usage sensitive revenues such as access (revenues earned for originating/terminating long distance calls) and long distance are generally billed as a per-minute charge. Although these revenues are billed in arrears, an estimate of unbilled revenues is accrued in the month service is provided.

Interstate access revenues are included in settlements based on the Company's participation in the revenue pools administered by the National Exchange Carrier Association (NECA). Settlement revenues are determined by annually prepared separations and interstate access cost studies. These studies are prepared subsequent to year end and, therefore, the related revenues are recorded on the books based on an estimate of NECA pool earnings and on other assumptions related to information utilized in the preparation of the Company's cost study. The studies are subject to a 24-month pool earnings adjustment period and a review of the study by NECA. There was an insignificant revenue impact on 2016 and 2015 for adjustments related to prior year differences between the recorded estimates and actual revenues. Furthermore, management does not anticipate that 2016 and 2015 recorded revenues will require significant adjustments in future years.

Access revenues are classified in wireline revenues above as follows:

- Customer revenues include end user charges such as the Subscriber Line Charge (SLC), Federal Universal Service Charge (FUSC), Access Recovery Charge (ARC), and special access billed to end users.
- Universal Service Support includes the amounts received from the Universal Service Fund for High Cost Loop Support (HCLS), Interstate Common Line Support (ICLS), and Connect America Fund support (CAF).
- All access charge and settlement revenue except as described above is classified as intercarrier revenue.

Internet revenues are derived from the provision of customer access to the public Internet, excluding revenues attributable to DSL transport (line costs between the customer and the Company's equipment that routes Internet traffic). Interstate access revenues include settlements from NECA that compensate the Company for the DSL transport related to the provision of Internet services.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies (continued)

Revenue recognition (continued) – Wireline universal service support revenue is intended to compensate the Company for the high cost of providing rural telecommunications service. Universal service support revenue includes funds received for HCLS, ICLS, CAF, and other miscellaneous programs. HCLS and ICLS are based on the Company's relative level of operating expense and plant investment. Support from the CAF is based on a historical frozen amount related to 2011 investment and expenses associated with the switching function and certain 2011 intrastate access revenues, which together make up the CAF base. The CAF base will be reduced by 5% each year in determining CAF support.

Regulation – The Company's services are subject to rate regulation as follows:

- Local telephone and intrastate access revenues are regulated by the state public utility commission. The FCC also has assumed preemptive authority to regulate intrastate telecommunications services, including intrastate access rates.
- Interstate access revenues are regulated by the FCC through its regulation of rates and settlements procedures as administered by NECA.
- Universal Service revenues are administered by Universal Service Administrative Company (USAC), based on rules established by the FCC.

The FCC released an Order and Further Notice of Proposed Rulemaking (FNPRM) in 2016 that reforms the High Cost Program supporting rate-of-return carriers. The following changes have been implemented to modernize the program:

- Provides support for stand-alone broadband services and investment;
- Requires broadband deployment based on the number of locations lacking service and the cost of providing service;
- Requires allowances for capital investments and limits on operational expenses; and
- Phases out support for areas served by a qualifying competitor.

The FNPRM also created two paths to receive high cost support for rate of return carriers. The model-based option is voluntary and is a fixed amount of support for ten years. The legacy mechanism reforms the existing ICLS mechanism to support stand-alone broadband and will now be known as the Connect America Fund Broadband Loop Support (CAF BLS).

Effective November 1, 2016, the Company made an election to participate in the model based option as described above.

Other sources of revenues are not rate regulated, and include Internet, long distance, equipment sales, billing and collection, and other incidental services.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies (continued)

Regulation (continued) – Nonregulated expenses and nonregulated plant are directly attributable to the following nonregulated services: Internet and miscellaneous revenues.

All other operating expenses and telecommunications plant are related primarily to wireline revenues. However, some of these costs jointly relate to regulated and nonregulated services. For interstate access settlements, universal service support, rate case, and other regulatory purposes, the portion of these common costs related to nonregulated activities are removed in accordance with Part 64 of the FCC rules in order to ensure regulated revenues are based on costs of providing regulated services.

Advertising expenses – The Company expenses advertising costs as incurred. Advertising expenses during the years ended September 30, 2016 and 2015, were \$7,053 and \$7,350, respectively.

Allowance for funds used during construction (AFUDC) – The Company records as income and capitalizes as a cost of construction the cost of financing large construction projects spanning a period greater than two months. The Company uses a weighted-average interest rate based on total Company long-term debt. No amounts were capitalized for the years ended September 30, 2016 or 2015.

Subsequent events – Subsequent events are events or transactions that occur after the balance sheet date but before the financial statements are available to be issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. The Company's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before the financial statements are available to be issued.

The Company has evaluated subsequent events through January 10, 2017, which is the date the financial statements are available to be issued.

Reclassifications – For comparability, certain of the 2015 figures have been reclassified in order to conform to the 2016 presentation. These reclassifications had no effect on net loss as previously reported.

NOTES TO FINANCIAL STATEMENTS

Note 3 – Related Party Note Payable (continued)

Maturities of long-term debt obligations for the five years following September 30, 2016, are as follows:

2016	\$ -
2017	-
2018	1,960,000
2019	250,000
2020	-
Thereafter	-
	<u>\$ 2,210,000</u>

All assets of the Company are pledged as security for the long-term debt. Interest on debt was \$10,927 and \$3,032 for the years ended September 30, 2016 and 2015, respectively.

Note 4 – Income Taxes

The components of the provision for income tax benefit (expense) are:

	<u>Years Ended September 30,</u>	
	<u>2016</u>	<u>2015</u>
Current		
Federal	\$ 290,852	\$ 233,072
State	(73,514)	(72,994)
Deferred		
Federal	42,392	39,706
State	8,419	11,347
	<u>\$ 268,149</u>	<u>\$ 211,131</u>

The provision for income taxes differs from the amount computed by applying the current statutory federal income tax rate to earnings before taxes due to the effects of state taxes (net of federal benefit), nondeductible items, nontaxable items, and prior year over or under accruals.

The provision for state taxes differs from the amount computed by applying the current statutory state income tax rate to earnings before taxes due to the tax-sharing agreement for West Virginia between the Companies. West Virginia state tax expense is allocated based on each Company's proportionate share of property, sales, and payroll activity within the state rather than taxable income.
